Adjusting options of the fork and shock, corresponding to the weight and cycling style of the rider.

The bicycle is available only in one frame size, but due to the scopes of adjusting of the components, the distance between the three basic points (pedals, saddle and handle bar) could be adjusted for riders with height from 145 to 195 cm.

Scopes of adjusting of the different components:

- A** up to 220 mm
- B** up to 40 mm
- C** up to 40 mm
- D** up to 60 degrees

Fits ergonomically riders of any sex, age or height.
